

GIHON Laboratories Receives Grant for Thimerosal Supply Security

Laboratorios Quimicos S.R.L. – the worldwide qualified producer of Thimerosal – received a grant from the Bill & Melinda Gates Foundation to manufacture a twelve-month stockpile of Thimerosal. This stockpile is to be used in the case of an unexpected change in policy or unavailability of Thimerosal, ensuring the continuous production and preservation of human and veterinary vaccines. “We feel honored to be one of the pieces in this gearbox that will try to remedy the lack of vaccines among children and adults of less privileged areas of the world. We are pursuing a beautiful goal and it makes worth the effort” so Ricardo Chevalier, CEO of GIHON Laboratorios Quimicos S.R.L.

Cfm Oskar Tropitzsch GmbH – the worldwide sales agent beside South America – supports the goal of preserving a stockpile by keeping half of this supply in its warehouses in Germany. By splitting of stockpile storage, an additional safeguard is put in place and a fast supply in case of emergency is guaranteed.

“We are proud to be part of this project to secure worldwide vaccination.” comments Steffen Tropitzsch, CEO of Cfm Oskar Tropitzsch GmbH

About GIHON Laboratorios Quimicos S.R.L.

GIHON Laboratorios Quimicos S.R.L. is an Argentinean company that began its operations in 1991, specialized in the production of chemicals involving complex organic, organometallic and inorganic synthesis. They are used in a vast range of pharmaceutical, agrochemical and veterinary products.

The manufacturing plant, QC and R&D laboratories are located in the Industrial Park of the city of Mar del Plata, Province of Buenos Aires-ARGENTINA. The state of the art technology is friendly to the environment, consistent with a community- committed policy. In order to meet the ever-growing demands of the global market, GIHON is determined to maintain the highest standards in two key areas: SAFETY and QUALITY – GIHON works according to GMP (Good Manufacturing Practices) and GLP (Good Laboratory Practices).
GIHON - “Believing in Knowledge”

About Cfm Oskar Tropitzsch GmbH:

Cfm Oskar Tropitzsch GmbH assists the chemical, pharmaceutical and biotechnological industry in sourcing and producing chemical specialties. The core of our work is to supply the product which our customer is looking for - with the right documentation, the correct quantity from mg to mt and proper quality and this not only for a one shot business but to support projects from RnD state up to commercial production. To achieve these challenging goals Cfm Oskar Tropitzsch GmbH uses its excellent knowhow and worldwide network of qualified suppliers.

Finding the best solution! ...it's not just a sentence - it's our mission!
